## Science

#### Working scientifically—across all areas

- asking simple questions and recognising that they can be answered in different ways
- observing closely, using simple equipment
- performing simple tests
- identifying and classifying
- using their observations and ideas to suggest answers to questions
- gathering and recording data to help in answering questions.

#### **Plants**

- identify and name a variety of common wild and garden plants, including deciduous and
  evergreen trees
- identify and describe the basic structure of a variety of common flowering plants, including trees.

#### Animals including humans

- identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals
- identify and name a variety of common animals that are carnivores, herbivores and omnivores
- describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)
- identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

#### **Everyday materials**

- distinguish between an object and the material from which it is made
- identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock
- describe the simple physical properties of a variety of everyday materials
  - compare and group together a variety of everyday materials on the basis of their simple physical properties.

#### Seasonal changes

- observe changes across the four seasons
- observe and describe weather associated with the seasons and how day length varies.

# Geography

- understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country
- name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas
- use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map;
- identify seasonal and daily weather patterns in the United Kingdom and the location
  of hot and cold areas of the world in relation to the Equator and the North and
  South Poles
- use basic geographical vocabulary to refer to: key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop
- use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map
- use simple fieldwork and observational skills to study the geography of their school
  and its grounds and the key human and physical features of its surrounding environment key human features, including: city, town, village, factory, farm, house, office,
  port, harbour and shop

# **Physical education**

- master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities.
- participate in team games, developing simple tactics
- perform dances using simple movement patterns.

## Music

- use their voices expressively and creatively by singing songs and speaking chants and rhymes.
   play tuned and un-tuned instruments musically.
- listen with concentration and understanding to a range of high-quality live and recorded

# Art and design

- To use a range of materials creatively to design and make products
- to use drawing, painting and sculpture to develop and share their ideas, experiences and imagination
- to develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space
- about the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work.

## Design and technology

Through a variety of creative and practical activities, pupils should be taught the knowledge, understanding and skills needed to engage in an iterative process of designing and making. They should work in a range of relevant contexts [for example, the home and school, gardens and playgrounds, the local community, industry and the wider environment].

When designing and making, pupils should be taught to:

#### Design

- design purposeful, functional, appealing products for themselves and other users
   based on design criteria.
- generate, develop, model and communicate their ideas through talking, drawing, templates, mock-ups and, where appropriate, information a communication technology

#### Make

- select from and use a range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing]
- select from and use a wide range of materials and components, including construction materials, textiles and ingredients, according to their characteristics

## **Evaluate**

- explore and evaluate a range of existing products
- evaluate their ideas and products against design criteria

## Technical knowledge

- build structures, exploring how they can be made stronger, stiffer and more stable
- explore and use mechanisms [for example, levers, sliders, wheels and axles], in their products.

### **Cooking and nutrition**

- use the basic principles of a healthy and varied diet to prepare dishes
- understand where food comes from

# History

- significant historical events, people and places in their own locality.
- changes within living memory. Where appropriate, these should be used to reveal
  aspects of change in national life
- events beyond living memory that are significant nationally or globally [for example, great inventors or events commemorated through festivals or anniversaries]

# Computing

- create and debug simple programs
- use logical reasoning to predict the behaviour of simple programs
- use technology purposefully to create, organise, store, manipulate and retrieve digital content
- recognise common uses of information technology beyond school
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

**English** 

Reading - word reading

apply phonic knowledge and skills as the route to decode words

respond speedily with the correct sound to graphemes (letters or groups of letters) for all 40+ phonemes, including, where applicable, alternative sounds for graphemes

read accurately by blending sounds in unfamiliar words containing GPCs that have been taught  $\,$ 

read common exception words, noting unusual correspondences between spelling and sound and where these occur in the word

read words containing taught GPCs and -s, -es, -ing, -ed, -er and -est endings

read other words of more than one syllable that contain taught GPCs

read words with contractions [for example, I'm, I'll, we'll], and understand that the apostrophe represents the omitted letter(s)

read aloud accurately books that are consistent with their developing phonic knowledge and that do not require them to use other strategies to work out words

re-read these books to build up their fluency and confidence in word reading.

develop pleasure in reading, motivation to read, vocabulary and understanding by:

listening to and discussing a wide range of poems, stories and non-fiction at a level beyond that at which they can read independently

being encouraged to link what they read or hear read to their own experiences

becoming very familiar with key stories, fairy stories and traditional tales, retelling them and considering their particular characteristics

recognising and joining in with predictable phrases

learning to appreciate rhymes and poems, and to recite some by heart

discussing word meanings, linking new meanings to those already known

understand both the books they can already read accurately and fluently and those they listen to by:

drawing on what they already know or on background information and vocabulary provided by the teacher

checking that the text makes sense to them as they read and correcting inaccurate reading

discussing the significance of the title and events

making inferences on the basis of what is being said and done

predicting what might happen on the basis of what has been read so far

participate in discussion about what is read to them, taking turns and listening to what

explain clearly their understanding of what is read to them.

Writing—transcription

words containing each of the 40+ phonemes already taught

common exception words

the days of the week

name the letters of the alphabet:

naming the letters of the alphabet in order

using letter names to distinguish between alternative spellings of the same sound

using the spelling rule for adding –s or –es as the plural marker for nouns and the third person singular marker for verbs

using the prefix un-

using –ing, –ed, –er and –est where no change is needed in the spelling of root words [for example, helping, helped, helper, eating, quicker, quickest]

apply simple spelling rules and guidance, as listed in English Appendix 1

write from memory simple sentences dictated by the teacher that include words using the GPCs and common exception words taught so far.

**Handwriting** 

Pupils should be taught to:

sit correctly at a table, holding a pencil comfortably and correctly

begin to form lower-case letters in the correct direction, starting and finishing in the right

form capital letters

form digits 0-9

understand which letters belong to which handwriting 'families' (i.e. letters that are formed in similar ways) and to practise these.

Composition

write sentences by:

saying out loud what they are going to write about

composing a sentence orally before writing it

sequencing sentences to form short narratives

re-reading what they have written to check that it makes sense

discuss what they have written with the teacher or other pupils

read aloud their writing clearly enough to be heard by their peers and the teacher.

vocabulary, grammar and punctuation

develop their understanding of the concepts set out in English Appendix 2 by:

leaving spaces between words

joining words and joining clauses using and

beginning to punctuate sentences using a capital letter and a full stop, question mark or exclamation mark

using a capital letter for names of people, places, the days of the week, and the personal

learning the grammar for year 1 in English Appendix 2

use the grammatical terminology in English Appendix 2 in discussing their writing.

### Mathematics

Number – number and place value

count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given

count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens given a number, identify one more and one less

identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most least, and the language of the lan

read and write numbers from 1 to 20 in numerals and words.

Addition and subtraction

read, write and interpret mathematical statements involving addition (+), subtraction (–) and equals (=) signs

represent and use number bonds and related subtraction facts within 20 add and subtract one-digit and two-digit numbers to 20, including zero

solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = -9.

Number - multiplication and division

solve one-step problems involving multiplication and division, by calculating the answer

concrete objects, pictorial representations and arrays with the support of the teacher.

recognise, find and name a half as one of two equal parts of an object, shape or quantity

recognise, find and name a quarter as one of four equal parts of an object, shape or quanti-

Measurement

compare, describe and solve practical problems for:

lengths and heights [for example, long/short, longer/shorter, tall/short, double/half]

mass/weight [for example, heavy/light, heavier than, lighter than]

capacity and volume [for example, full/empty, more than, less than, half, half full, quarter]

time [for example, quicker, slower, earlier, later] measure and begin to record the following:

lengths and heights

mass/weight

capacity and volume

time (hours, minutes, seconds)

recognise and know the value of different denominations of coins and notes

sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]

recognise and use language relating to dates, including days of the week, weeks, months

tell the time to the hour and half past the hour and draw the hands on a clock face to show

Geometry - properties of shapes

recognise and name common 2-D and 3-D shapes, including:

2-D shapes [for example, rectangles (including squares), circles and triangles]

3-D shapes [for example, cuboids (including cubes), pyramids and spheres].

Geometry - position and direction

describe position, direction and movement, including whole, half, quarter and three-quarter
