

Our guest judge for the Science Photography – Winter Competition was Frank Carr.

Frank is a retired professional photographer and lecturer.

Frank was very impressed with the quality of the photographs entered, from young and old.

Talking about his overall favourite Frank said that he was very impressed with the use of 'rule of thirds' on the snowman on the fence, as well as the fact that it wasn't face on and the fence line took you into the distance.

Winning Entries

Reception		Year 1		Year 2
