

Overview

You can use digital devices to create, edit and listen to music.

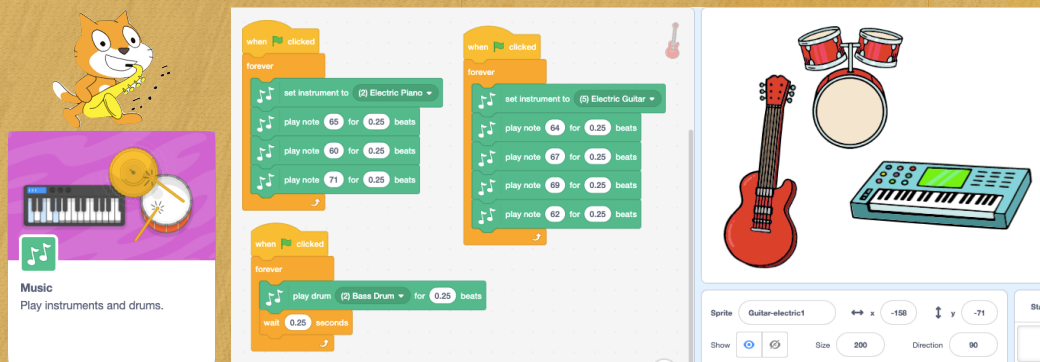

Music software will let you select music notes, explore different instruments, change percussion options and edit the rhythm, pitch and tempo to change the sound and emotion of music.

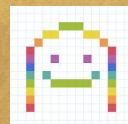

Software we use to make music

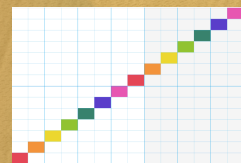

Using Scratch to make music

Chrome Music Lab: Song Maker

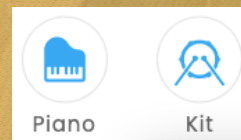

Song Maker is a fun way for you to create, play and share music.

Add musical notes:
- the higher up you click, the higher the pitch!

Add percussion:
- create rhythms and beats

Change the instruments and percussion types

Change the tempo
Make your song play fast or slow

Listen

Your song is saved at this link:
