

Overview

Coding is when you make a set of instructions for the computer to follow.

Rapid Router is a type of on screen coding software. There are many different types. These work similar to a Beebot robot.

Rapid Router Commands

move forwards ↑

Rapid Router Create

You can create your own routes using Rapid Router and set challenges for yourself or others.

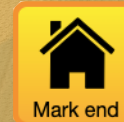

Add road

Delete road

Mark start

Mark end

Begin by creating a route of roads. You can add turns and crossroads.

Then add a start and end.

Then add scenery.

Choose from grass, farm, snow or city.

Finally select a character or van to play.

PROGRAM

- list of instructions which tells the computer exactly what to do

DEBUG

- find and fix mistakes in a computer program
