

We are confident.
We are inquisitive.
We are scientists.

Science Vocabulary of the Week

mammal

Mammals are vertebrate animals, which means they have a backbone. They are warm blooded with hair or fur on their skin. Mammal mothers produce milk for their young.

They can be found both on land and in the ocean. Examples of land mammals include lions, lemurs, dogs and humans. Examples of sea mammals include seals, whales, dolphins and walruses.
