Peng and Spanners

by Steve Webb

This book is really funny and its about pizza. Peng doesn't always understand Spanners.

When the school pizza parlour disappears and a giant robot suddenly appears, Pengtastic and Spanners know that only they can help the headmaster find his parlour before the school inspectors arrive and shut him down. There's just one massive pesky robot to defeat, Cinderella the caretaker, who roars about rules and an incredible jail break to get out of first.
